Executive Business Report

Final Business Insights & Strategic Recommendations

Business Objective

Build a centralized Business Intelligence platform that transforms fragmented operational data into actionable executive insights for strategic decision-making.

Key Business Risks

- Revenue concentrated in limited markets
- Low-rated products require optimization
- Premium segment needs stronger positioning
- Customer feedback should be monitored continuously

Growth Opportunities Identified

- Expand premium presence in Japan
- Invest in peptide-based skincare
- Scale best-performing product lines
- Improve digital marketing
- Launch premium bundles

Strategic Recommendations

- Expand investment in high-growth markets
- Optimize underperforming product lines
- Strengthen premium skincare portfolio
- Scale best-performing categories
- Enhance customer retention strategy

Executive Conclusion

BeautyIQ successfully transforms fragmented enterprise data into actionable business intelligence. The platform enables faster decision-making, improves business visibility, and supports sustainable growth across products, customers, and global markets.

Project Overview

Business Intelligence Portfolio Case Study

Portfolio	Business Intelligence Case Study
